SUMMARY

I am a Software Engineering student from Daffodil International University with a strong passion for full-stack web development. Skilled in Laravel, Vue.js, and modern web technologies, I focus on building clean, scalable, and efficient web applications. I also have growing expertise in Python and Django, enabling me to work on both backend and data-driven solutions. Throughout my studies, I have completed several personal and academic projects that demonstrate my practical understanding of real-world software development. I am eager to apply my technical knowledge and creativity in a professional environment to contribute to impactful projects and continue growing as a developer.

WORK EXPERIENCE

Chief Technology Officer (CTO) at Gadgetaloy   **April 2025 - Present**

- Managed all technical operations of the Gadgetaloy website and digital platforms.
- Led the development of the Gadgetaloy Inventory Grid, integrating it with company operations as part of the final year project.
- Handled software development, troubleshooting, and technical issue resolution across web and software systems.

EDUCATION

Bachelor of Science (B.Sc) in Software Engineering   **January 2022 - Present**
Daffodil International University

- **Final Year Project:** "Gadgetaloy Inventory Management System – Gadgetaloy Inventory Grid"

Higher Secondary Certificate (H.S.C)   **April 2018 - March 2020**
Uttara High School & College

SKILLS

- Teamwork & Collaboration
- Adaptability & Quick Learning
- Time Management
- Creativity & Problem Understanding
- Communication (Professional & Academic)
- Attention to Detail

Hard Skills (Technical Skills) :
- **Languages:** C, Java, PHP, JavaScript, Phthon, HTML5, CSS3.
- **Frameworks & Libraries:** Laravel, Vue.js, Bootstrap, Tailwind, Axios.
- **Tools & Platforms:** Git, GitHub, VS Code, Vercel, Netlify, MySQL, Canva, CodeCanyon, Postman.
- **Technical Proficiencies:** REST API, Postman, Payment Gateway Integration, Git, GitHub, MySQL, Deployment, Hosting, Documentation, DevOps, MS Office.

PROJECTS

- **Gadgetaloy Inventory Grid (Final Year Project)**

A full-featured inventory management system built with Laravel, PHP, and MySQL, designed to streamline product tracking and management.
GitHub/Project Link: https://github.com/nusrulnakibnahid/Gadgetaloy-Inventory-Gird

- **Sunnah Sparks - Random Hadith Generator**

A simple and interactive web application that allows users to search for specific Hadith or view a random Hadith. Built using HTML, CSS, and JavaScript, it provides an easy way to access the sayings of Prophet Muhammad (PBUH).
GitHub/Project Link: https://sunnah-sparks.netlify.app/

- **Boycott Israel**

A digital awareness project promoting the boycott of Israeli products and encouraging the use of Bangladeshi alternatives to support local economy.
GitHub/Project Link: https://boycott-israel-product.vercel.app/

- **Real Madrid CF (Official Clone Website 24-25 Session)**

A responsive web project built with HTML, CSS, and JavaScript, featuring smooth animations, dynamic interactions, and clean design.
GitHub/Project Link: https://real-madrid-cf-clone.netlify.app/

- **FreshMart - Online Grocery Shop**

A full-featured online grocery shop built with PHP, MySQL, JavaScript, and Bootstrap, featuring secure user authentication, product browsing, shopping cart, smooth checkout, admin panel, and real-time dashboard.
GitHub/Project Link: https://github.com/nusrulnakibnahid/Online-Grocery-Shop---FreshMart

CERTIFICATIONS

- Full Stack Web Development with PHP, Laravel & Vue.js – **OSTAD**
